

# Environmental Policy

Xcalibur Smart Mapping is fully committed to understanding and minimising the impact of its operations on the environment and improvement of its environmental performance, an integral part of its business strategy.

Xcalibur Smart Mapping commits to:

- Comply with all applicable statutory requirements and industry best practices.
- Minimize energy consumption and waste generation.
- Avoid use of products and practices detrimental to environment.
- Continually work to reduce its impact on the environment.

To achieve these aims, Xcalibur Smart Mapping will:

- Assess the impact of all its business processes on environment and identify actions to reduce them to a sustainable level.
- Promote and disseminate good environmental practices to its employees, clients, subcontractors, and other stakeholders.
- Make environmental risk assessment an integral part of its operations.
- Allocate adequate resources to develop relevant systems and training.
- Continually seek opportunities to improve its environmental performance by establishing objectives and targets, measuring progress, analysing feedback, and acting on results.

A handwritten signature in blue ink, appearing to read "A. Blanco".
